

Butterfly

Butterfly in a hurricane
Do you cry in the rain?
Took a slide, now you're there again
In the rain, in the rain
Out in the rain

Hummingbird flying through a gale
Well I know how it wails
Little girl, though you seem so frail
You prevail, you prevail
Yeah, you prevail

Butterfly in a hurricane
You abide with the pain
Better hide 'fore it comes again
Better hide by my side
Better hide by my side

Hummingbird in a hurricane
Do you cry in the rain?
Butterfly in a driving rain
You abide with the pain
Better hide 'fore it comes again
Better hide by my side
It's alright here by my side
You can ride here by my side
