

Got Me

She got me
She got me where I want her
I want her
I want her where she's got me

She wants me
She wants me where I got her
I got her
I got her where she wants me
She's got me
She's got me

She's got me
She's got me where I want her
I want her
I want her where she's got me

She wants me
She wants me where I got her
I got her
I got her where she wants me
She's got me
She's got me
