

# Two Moons

Coyote chorus made me smile  
Stirred something in me that's still wild  
Watery glass was shimmering  
The lonely moon stretched for miles

Chorus:

Sometimes I don't feel so lucky  
But at times fortune smiles broadly  
'Cause one night I hit the jackpot  
There were two moons that shone for me

Then the waves crashed rather loudly  
Clouds hid the stars totally  
But then came a calm and clearing  
And two moons: in the sky and sea

Chorus

Three moons ride on the eventide  
But only one crosses the sky  
The other two that held my gaze though  
Were shining brightly in your eyes  
Three moons ride on the eventide  
And two shine brightly from your eyes

Chorus
