

Wren's Realm

She warbles and she trills
So many sweet notes spill
Into the joy that fills
Up the canyon
Fills up the canyon

It feels like love's so near
Within this peaceful sphere
How long has she been here
In the canyon
Here in the canyon

Welcome to the realm of love

It's just a single word
One that you may have heard
Many times, but now you're
In the canyon
You're in the canyon

Love's a way of life here
More than words in your ear
Because love sounds so clear
In the canyon
Here in the canyon

Welcome to the realm of love
